

# Getting Started With MakerSpace & Coding

Thursday, November 8, 2018  
8:30am to 11:30am

- Teachers in grades 4-12 are invited to register as a pair & learn how to supplement your lesson with design and coding.
- Each pair of teachers will receive two **3D Pens with Filament**, two *Worlds of Making...* book, one **Makey Makey** invention kit, one **Arduino Uno R3 Microcontroller**, and one *Getting Started with Arduino* book
- Receive step-by-step information on how to use each device. See how to easily design lessons.
- Bring a laptop with a USB port or borrow one of ours.
- Come ready to play and learn. A great workshop for teachers who are serious about integrating MakerSpace and Coding into teaching and learning.
- \$335 Cost for two teachers
- **Graduate Credit:** One credit will be available through Ashland University for an additional \$170 by attending the entire session and completing a project.

Session held at ideastream®, 1375 Euclid Ave., Cleveland, OH  
**Visit:** [www.ideastream.org/education/learning](http://www.ideastream.org/education/learning) to register
